ABOUT

Once known for its mining industry, Park City, UT is nestled in crevices of the Wasatch Mountain Range with miles of snowy terrain surrounding the town. Park City is a prime destination for anyone looking for a winter wonderland. Known for the ultimate winter trifecta: snowboarding, skiing and the Sundance Film Festival, Park City can provide an epic adventure. The city has two major ski resorts: Deer Valley Resort and Park City Mountain Resort. Back in 2015, thanks to an alliance with mountain behemoth Vail Resorts, Park City Ski Resort and Canyons Resorts merged into Park City Mountain Resort. The result is a 7,300-acre mountain retreat complete with a high-speed gondola, Quicksilver, as well as a handful of new on-mountain upgrades.

In addition to being the home to the United States Ski Team and training center for members of the Australian Freestyle Ski Team, Park City houses the 2002 Olympic bobsled/skeleton/luge track at the Utah Olympic Park along with several outstanding golf courses. The city is the main location of the United States' largest independent film festival, the Sundance Film Festival, making it a hip place to be at the end of January. That being said, winter vacation in Utah certainly has its draws – wide-open terrain, more bluebird days than you can count, and some seriously good, consistent snow. Another draw is the proximity to the airport. This laid-back, former mining town is rightfully getting the attention it deserves.

Winter activities and options in Park City are endless. With two resorts and a state-of-the-art action sports hub just a few miles apart, the skiing and snowboarding here are world-class. As a reminder, Deer Valley Resort was voted the number one ski resort in America for 2021 by Condé Nast Traveler, whereas Park City Mountain is the largest ski resort in the country; by adding Woodward Park City, with its lift service terrain park for all levels, to the mixer, the result is an epic winter vacation. The offerings here for snowfall, groomers, backcountry, terrain parks, and lifts are of the highest quality anywhere in the world.

Park City locals enjoy skiing at both Deer Valley Resort and Park City Mountain Resort. Whether you are an eager beginner, mogul expert, powder hound or groomer carver, Deer Valley appeals to all. More importantly, it is a ski-only resort thus you have your pick of ideal ski conditions spread over 2,000 acres of varied terrain and runs featuring "the greatest snow on earth."

On the other hand, skiing in Park Mountain Resort may start in Park City on the town lift. The lower mountain is great for families because of the variety of terrain. Similar to the Park City side, The Canyons side of the mountain has a huge variety of intermediate terrain.
