ABOUT

Turks and Caicos are an archipelago consisting of 40 low-lying coral islands in the Atlantic Ocean. This remote British Overseas Territory is southeast of the Bahamas. The gateway island of Providenciales, known as Provo, is home to expansive Grace Bay Beach, with luxury resorts, shops, and restaurants. Scuba-diving sites include a 14-mile barrier reef on Provo's north shore and a dramatic 2,134m underwater wall off Grand Turk island.

Providenciales stands as the most famous of the Islands, drawing in visitors from every corner of the planet. Known for pristine white sand beaches, beautiful turquoise waters, and endless water activities, Providenciales is a gem of the archipelago. Eighty miles of stunning beautiful barrier reef account for the impeccable water conditions of the area.

Located on the western end of the island chain, Provo, offers extensive modern amenities. A true luxury destination, the island has everything from five-star hotels to villas, restaurants, spas, shopping facilities, and a championship-caliber golf course. Despite being the most developed of the islands, it is still a premier destination for a calm and tranquil retreat.

Stunning turquoise crystalline waters, soft white sand beaches, and unparalleled serenity account for a breathtaking shoreline. LVH invites travelers to indulge in these stunning environments fully. Let LVH take care of the rest.

BEACHES

BEACHES

LVH

Ethereal and otherworldly, the beaches of Turks and Caicos appear to belong to a different dimension. Endless white sand meets with a dazzling spectrum of boundless turquoise, aqua, and azure hues. Balmy shallow waters are embraced by exceptionally soft sand of shell and coral origin, accounting for a dazzling white speckled with mesmerizing peach and pink gradients. A shoreline that must be experienced to be believed, a minute out on these sands will undo a lifetime of bodily tension.

BEACHES

1. Malcolm's Road Beach
2. Chalk Sound
3. Coral Gardens
4. Grace Bay Beach
5. Little Water Cay/Iguana Island
6. Taylor Bay

BIGHT REEF

The Bight Reef (also known as Coral Gardens) is an excellent snorkeling area that begins close to the beach, and is the most popular snorkeling site in the Turks and Caicos. This is the ideal location to start an underwater adventure before exploring some of the other beautiful beach reefs around Providenciales.

CHALK SOUND

Chalk Sound is a highly scenic natural lagoon on the southwest of Providenciales. This national park features shallow and brilliant aquamarine water with hundreds of small rocky islands.

GRACE BAY BEACH

The world famous Grace Bay Beach is often ranked as the best beach in the world. Found on the north coast, it is home to pristine white sand beaches, and is part of the Princess Alexandra National Park. The bay is protected by a beautiful barrier reef system, which offers some great scuba diving.

IGUANA ISLAND

"Iguana Island" may sound like a scary place, but in Turks & Caicos, the moniker fondly refers to Little Water Cay, home to the islands' remaining endangered population of rock iguanas. The Turks and Caicos National Trust leads efforts to protect the habitat.

BEACHES

MALCOLM'S ROAD BEACH

Malcolm's Road is a beautiful and secluded beach that's found off the remote west coast of Providenciales. One unique aspect of Malcolm's Road is that it's located close to the wall, which is the sheer drop-off on the edge of the underwater Caicos Islands plateau.

LVH

TAYLOR BAY

This beach lies on the southwest coast of Provo, just two and a half miles from the town of Five Cays. White sand fills the beach's crescent shape. And the bright blue water — which makes starfish visible to shallow-water swimmers — matches the allure of many of the beaches on Providenciales.

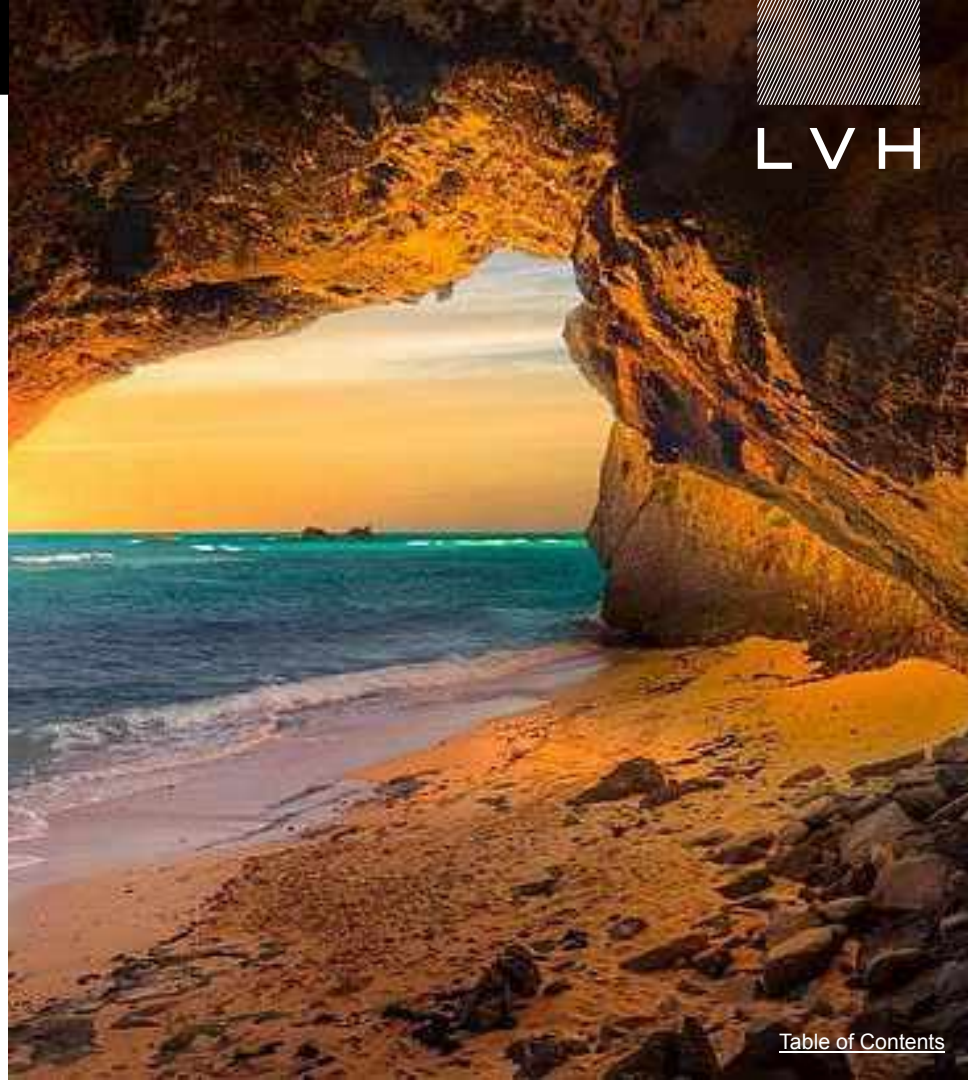

LVH

NATURE

Regarded as the islands that time forgot, Turks & Caicos' wispy archipelago stretches hundreds of miles from east to west. With 80% of the archipelago accessible by either propeller plane or ferry boat, its nature is virtually untouched, the ultimate "Desert Island" fantasy. Virgin beaches abound for miles, while the waters reveal the third largest coral system on earth. Boasting incredible biodiversity, these islands are home to a fascinating rare marine and aviary ecosystem. National symbols include the local JoJo bottlenose dolphin and the Caribbean Queen conch. The archipelago offers front-row seats to the Atlantic Humpback whales' annual migration if guests visit from late January to early March. The conscientious spirit of a remote community living in tandem with nature strikes visitors upon arrival. These low-lying islands are home to 34 protected natural parks and nature reserve sites. Impressive limestone cliffs of Mudjin Harbor on Middle Caicos, and West Harbor Bluff on Providenciales, speak to the unique geographic constitution of the islands, sculpted by time and erosion. Limestone foundations are dotted with sinkholes, intricate underwater cave systems, offering some of the world's most incredible scuba diving and spelunking adventures.

2. Princess Alexandra National Park
3. Provo Ponies

Discover pristine reefs, verdant marine wetlands, and the world's best beaches. Vacationers who enjoy kayaking, paddle boarding, sailing and snorkeling often head to this area.

NORTHWEST POINT NATIONAL PARK

Northwest Point is a highly scenic coastal environment, and the extreme north-eastern point of Providenciales, which includes a significant region of the ocean and coast up to the high tide point, and Northwest Point Pond Nature Reserve, an inland marine wetland system of two ponds and underwater caves.

PROVO PONIES

Provo Ponies, on the southeast side of the island, is the island's oldest stable and offers both group and private rides. Besides riding, the stable offers educational experiences with dozens of rescued ponies.
